TWO-THIRDS OF ALL OUR DISEASES & AILMENTS

ARE CAUSED BY
DERANGED NERVE CENTRES
AT THE BASE OF THE BRAIN.

As all know, a serious injury to the spinal cord will at once cause
Paralysis of the body below the injured part; it therefore will be equally
well understood how the derangement of the nerve centres will cause the
derangement of the different organs of the body which they supply with
Nerve Fluid or Nerve Force.

The wonderful success of SOUTH AMERICAN NERVE is due alone to the
fact that it is based on the foregoing principle. The use of a single bottle of
this remedy will continue the most ridiculous. It is, indeed, a veritable
Nerve Food and WILL RELIEVE IN ONE DAY the varied forms of
Nervous Disease and Stomach Troubles.

This class of diseases is rapidly increasing each year, on account of the
great wear our mode of living and labor imposes upon the nervous system.
Ninety-nine of all the ailments to which the human family is heir, are
dependent upon nervous exhaustion, impaired digestion, and a deteriorated
and impoverished condition of the blood. The SOUTH AMERICAN NERVE
is a great nerve food and nerve builder, and this accounts for its marvellous
power to cure the varied forms of nervous disease, such as Neuritis,
Neurosis, Nervous Prostration, St. Vitus's Dance, Nervous Choking,
Nervous Paralysis, Twitching of the Muscles, Hot Flashes, Mental
Depression, Forgetfulness, Sleeplessness, Restlessness, Nervousness of
Females, Palpitation of the Heart, Sexual Weakness, etc., etc.

HARTFORD CITY, Blackford Co., Indiana, June 8, '93.

South American Medicine Co.

GENEVA: I received a letter from you May 27,
stating that you had heard of my wonderful recovery
from a spell of sickness of six years duration, through
the use of SOUTH AMERICAN NERVE, and asking
for my testimonial. I will gladly state how I was afflicted
and how I was delivered from my pain and suffering.
I was nearly thirty-five years old, when I took down
with nervous prostration. Our family physician treated
me, but without benefiting me in the least. My nervous
system seemed to be entirely shattered, and I constantly
had very severe shaking spells. In addition to this I
would have vomiting spells, and there would be from eighteen to twenty days at a time
that I could not retain anything on my stomach. Many consultations were held by
physicians over my case, but they all agreed that I would never leave my bed. During the
years I lay sick, my folks had an eminent physician from Dayton, Ohio, and two from
Columbus, Ohio, to come and examine me. They all said I could not live. I got to having
spells like spasms, and I would be cold and stiff for a time after each. At last I lost the
use of my body—could not rise from my bed or walk a step, and had to be lifted like a
child all the time suffering intense pain, and taking almost every known medicine. Part
of the time I could rest a little, and one day saw an advertisement of your medicine and
concluded to try one bottle. By the time I had taken one or two bottles, I could rise
up and take a step or two by using help, and after I had taken five bottles in all I
felt well. The shaking went away gradually, and I could eat and sleep good, and
my friends could scarcely believe it was I. I am sure this medicine is the best in the world.
It was a god send to me, and I believe it saved my life. I give my name and address, so
that if any one doubts my statement they can write me, or our postmaster, or any citizen,
as all are acquainted with my case. I am now forty-one years of age, and expect to live as long
as the Lord has a use for me and do all the good I can in helping the suffering.

WILL A REMEDY WHICH CAN EFFECT SUCH A MARVELLOUS CURE AS THE ABOVE, COME YET?

THURSDAY, SEPT. 20, 1894.

TUBERCULOSIS.

In Bulletin No. 20, issued by
the Department of Agriculture, en-
titled "Tuberculosis," under date
February, 1894, we are told that
the first case of this disease, which
occurred at the Central Farm, was
in July, 1891. Between that date
and 30th May, 1892, eight head of
cattle were lost through the disease.

As all the remaining animals ap-
peared to be healthy and vigorous,
it was hoped that this trouble was
ended, but during the next few
months six other cows began to
manifest obscure symptoms which
led to the belief that they might be
affected with this disease. Be it
understood that this was prior to
the introduction of Professor Koch's
lymph or tuberculin test, which has
proved itself invaluable as an indi-
cator of this disease in cattle. The
point we wish to make is this, that
if cattle were distributed from the
Central Farm over the country pre-
vious to the introduction of the
tuberculin test, it is not just possible
that the disease was also sent
broadcast over the land, as, accord-
ing to the bulletin mentioned, the
authorities have confessed them-
selves in error, and in consequence
of this error, it is not the duty of
the Dominion Government to have
an examination made of all cattle,
and have such as are found affected
destroyed; furthermore, that the
owners of all such cattle destroyed
be compensated. We have in the
Qu'Appelle district several head of
cattle that have been purchased from
the Experimental Farm, Indian
Head, and who is to tell whether or
not they are affected? "A stitch
in time saves nine."

MEETING OF PRESBYTERY.

On Wednesday, the 12th inst.,
the Regina Presbytery was held in
the church at Whitewood, with
Rev. Mr. Moore as moderator.

The following gentlemen were
present:—Mr. Carmichael, Regina;
Mr. McKee, Lumsden; Mr. Campbell,
Matheson, Balgonie; Mr. Campbell,
Wolsley; Mr. McLeod, Grenfell;
Mr. Welsh, Indian Head; Mr. Mc-
Kay, Round Lake; Mr. Reddon,
Moosomin; Mr. McMillen, Wapella;
Mr. Muirhead, Whitewood; Mc-
Kay, Fort Qu'Appelle, and McAl-
lister, Qu'Appelle; students: Messrs.
Anderson, Rosewood; Thompson,
Greenvale; Reenie, Wapella; Ran-
nie; Welwyn; Wadell, Pipestone;
McLennan, Rose Plain; Cameron,
Landsdowne, and Helfstrand, New
Stockholm.

At a request from Indian Head,
it was agreed that the fields of
Indian Head and Qu'Appelle be
united for the winter months. Mr.
McAllister was appointed missionary
to the two fields till March next.
Messrs. Carmichael and Matheson
to meet the two congregations, and
ascertain if the arrangement was
satisfactory to all concerned.

Mr. A. P. Ledingham, B.A., a
graduate of Manitoba College,
will take charge of the work at
Moose Jaw, where his ordination
was fixed for the 15th inst.

On account of the crop failure in
certain districts, additional grants
were allowed. A great deal of
business was transacted during the
day.

Deep spirituality mingled
with considerable wit and humor
characterized the whole proceedings.

In the afternoon a missionary
conference was held and the students
gave interesting reports of their ups
and downs during the summer
months. The young recruits be-
haved admirably in presence of the
worthy veterans, who deal with
them with great tenderness.

The evening meeting proved a
great success; the church was
crowded to the doors. Short ad-
dresses were delivered by Messrs.
McKay, Round Lake; McKay, Fort
Qu'Appelle; Wadell, Pipestone;
Matheson, Balgonie. The tone of
the meeting was deeply spiritual
throughout. Mr. Matheson ap-
peared at his best, extolling the old
book and commending the blessed
Saviour. Every Christian heart was
fired with holy enthusiasm.

The good ladies of the town, not
satisfied with the hospitality shown
in their homes, provided a much
enjoyed lunch after the evening
service. Rev. Mr. Muirhead,
clerk of Presbytery, pastor of the
town, was requested to convey the
thanks of the court to the ladies of
Whitewood for the kind and ex-
cellent way in which they treated
the members of the Presbytery.

Rev. Mr. Carmichael's brief
account of his attendance at the
Grand Assembly was most interest-
ing and instructive, and sparkled
with no little sanctified wit to the
enjoyment of all. While waiting
for the train the various problems
of the day were freely discussed.
The Presbytery is really in earnest
and united with much holy zeal in
the holy cause.

Presbytery to meet at Wolsley
the second Wednesday of March,
1894.

SUPPOSED MURDER AT FILE HILLS.

Coroner Cartthew held an inquest
at the File Hills Agency on Mon-
day last to ascertain the cause of
the death of Josiah Matourney, a
breed or Indian. It was reported
that Matourney had been shot by
an Indian named Tom Lemaie, and
the finding of the jury is to the
effect that Lemaie discharged the
weapon which caused fatal injuries.

A warrant has been issued for the
arrest of Lemaie, who is supposed
to be still in the district, and as he
is well known to the police it is
thought he will soon be captured.

The following evidence, taken at
the inquest, tells the story of the
crime.

Andrew McNab, sworn: I was
going from Touchwood on the
morning of the 16th. A short time
after sunrise on that day I saw the
deceased sitting about six feet from
the trail on which I was passing. I
was about ten yards from him when
he called me. Deceased said, "Come
here, I feel very sick; I got shot." I
asked him why, and he said, "I
do not know. Tom Lemaie shot me
more than once." He asked for
water, and I gave him some, and he
had a drink. Then I asked him
where we were, and he said he
did not know. I saw a house some
three or four hundred yards away,
and then found I was only about a
mile from the Agency. I came on
to the Agency, after telling the
people at the house to get the sick
Indian. At the Agency I told my
son William what I had seen, and
said it was all right, as the people
living near were caring for him,
but after a while a young man came
and said they had done nothing, so
my son and the agent went to the
sick man.

William Daniels, sworn: About
dusk on Saturday, the 15th, I was
in my house when I heard one or
more Indians singing on the trail
near by. The road at the nearest
point is about three hundred yards
from my house. About two minutes
after I heard them singing I heard
two shots. They seemed to be
going north. Where the deceased
was found was north of where I
heard them singing. Yesterday,
the 16th, about 6 p.m., I saw Tom
Lemaie about thirty yards away. I
know him quite well, and saw him
going towards the Fort. About six
o'clock I passed where I had been
told deceased was lying. He seemed
to be lying down. I was afraid to
go nearer. I came over and told
William McNab at the Agency. That
was about 8 o'clock a.m. About
10 o'clock a.m. the deceased
was brought to my house. The
agent, Wm. McNab and myself
took him to my house. He only
lived a few minutes after being laid
on the floor. To a juror. The
reason I was so long in going to
the Agency was that I was getting
my ponies.

William McNab, sworn: I knew
the deceased, and saw him about

three years ago. I never knew of
any quarrel between him and Tom
Lemaie. About 9 a.m. yesterday,
Wm. Daniels came and told me he
was afraid to go near the deceased.

I then informed the agent, and
he and Daniels and I went over to the
man. He was still living. I went
to him and asked him what was
wrong, and he said, "Not much."

I again asked him what was wrong
and sat down beside him, and he
then said he was shot. I asked
who had shot him, and he said Tom
Lemaie, but he did not know why
he had done it. I said, "You must
have been drinking," and he replied,
"Yes, we have been drinking a
little." He was perfectly conscious
of what he was saying. He men-
tioned my father having left his
little barrel of water with him. We
lifted him into the buckboard, and
took him over to Wm. Daniels's
house, it being the nearest. When
we were lifting him into the buck-
board he said, "I am fainting," and
these were his last words. I have
seen nothing of Lemaie during the
last few days.

John Philip Wright, agent at the
File Hills Reserve, gave evidence,
which was practically the same as
that of the interpreter, Wm. Mc-
Nab. Witness sent messages for
the doctor and the coroner. He
did not search the pockets of the
deceased, nor did he find any fire-
arms or liquor about him.

Alexander Daniels deposed that
he lived close to William Daniels,
and heard the singing of the Indians
and the firing of the shots. He saw
Tom Lemaie on Sunday morning,
but he did not stop. He was going
towards the Fort.

Joseph Martin, who lives with
Wm. Daniels, stated that he heard
the singing and the two reports.
He saw Tom Lemaie on Sunday
afternoon. Lemaie asked him if he
had seen his partner, meaning the
deceased. Witness said he did not
know, his reason for saying so was
a suspicion that Lemaie would skip
out of the country. Lemaie was
dressed like a policeman in a black
coat with brass. He had a car-
tridge belt and cartridges; also a
revolver case, which appeared to
have a revolver in it. He had on
a soft grey felt hat, and was riding
a black horse.

Basil Mozer deposed: I knew
deceased, also Lemaie. On Saturday
night, I had been hobnobbing my
horses and was going into the house
when I heard the shots. Tom
Lemaie rode up to my house about
9 a.m. yesterday. He wore a black
coat like a policeman, with yellow
braids on the breast. He wore a soft
white felt hat, and rode a black
horse. He said, "You did not see
my partner?" I asked him how he
had lost him. He said Matourney
and left him. I again saw Lemaie
about sundown at Alex. Daniels's
house, and shook hands with him.
He took me aside and said he was
afraid something had happened to
his partner. He also said they had
been drinking and had two bottles.

Yesterday, when I saw Lemaie he
had a revolver and belt full of
cartridges. On the 2nd of July last
I talked with Lemaie at Fort
Qu'Appelle. He then told me he
believed either deceased or his
brother had poisoned his sister. He
was sore in his heart for the death
of his sister. He would get even
with them some day, and then he
satisfied.

Andrew Louie Holmes deposed
that he did not know the deceased,
but knew Lemaie. The latter part
of June, or early in July, Lemaie
came to witness at Fort Qu'Appelle
and said his sister had died very
suddenly. He believed she had been
poisoned, and suspected two Indians
of having done it. Witness advised
him to go to the doctor and see
about it. Lemaie asked witness
what he would do if he did any-
thing to the men, and witness re-
plied that it would all depend on
what he did.

William Hall, M.D., stated that
he held a post-mortem examination
on the deceased in the house of
Wm. Daniels. He found a wound on
the right side, seemingly from a
bullet of not less than 38 calibre.
The internal injuries were quite
sufficient to cause death, and it was
a wonder he had lived as long as
he did. The wound ran at right
angles with the body, and must
have been given at a range of not
more than fifteen feet. It was very
unlikely that he inflicted the
wound on himself. There was no
burning of the clothes.

The verdict of the jury was that
they believed Josiah Matourney
came to his death from the effects
of a bullet wound, caused by a fire-
arm supposed to be in the hand of
an Indian named Tom Lemaie.

CHAPTER XXXVI.

Sokey had met with this accident several weeks before Ruth's arrival. The child inherited her mother's love of reading, and she cried bitterly when she learned that she could never hope to go to school again. The doctor said her only chance of recovery was in lying stretched out flat for a year or more on the board with which the rector's kindness had provided her. A year seemed an eternity to

marriage might benefit him; he might become really attached to her, and begin a new course of life. She turned, however, from the thought as soon as possible. She felt sorry that Susan had recalled it.

The post had brought her answer from her husband. He said her letter had yet heard from him. He said he had not much news to write, but that he was not very anxious. He was more hopeful about his friend, and he said he might return sooner than he expected when he last wrote.

Guns are said to have been used by the Chinese before the beginning of the Christian era. The oldest dated piece of European artillery bears an inscription declaring that the gun was cast in 1393.

A PICTURE AT THE RECENT NAVAL
MANŒUVRES.

is already raising the valves and blowing off at a pressure of 100 pounds. The captain has but to press the button by his side, and in a moment the four great engines will be driving the twin screws through the water with the force of 14,000 horse power, and the great ship, with the dead-weight of 10,000 tons, will be rushing onwards at a speed of over 20 miles an hour. Far down below our feet, in the chambers of the great guns, lie the dark masses of the powder charges. A touch, a spark, and in a sheet

Husband (struck by a bright idea)—"Let the baby sleep with her."

A Windfall.

Mother—"I have just heard something that you ought to know. Your father tells me that your husband is hopelessly involved."

Married Daughter—"Isn't that lovely! Now, maybe, he'll make over all his property to me."

WHAT IS GOING ON IN THE FOUR
CORNERS OF THE GLOBE.

Josie—"I was taken for 25 to-day and I am only 18."
Julia—"What will you be taken for when you are 25?"
Josie—"For better or worse, I hope."

Numerous households have the tin

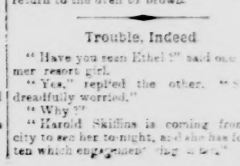

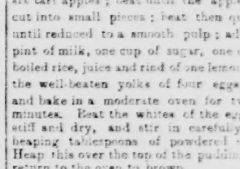

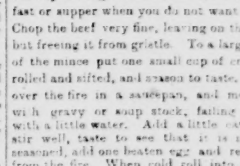

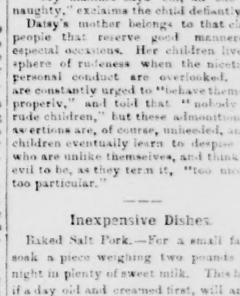

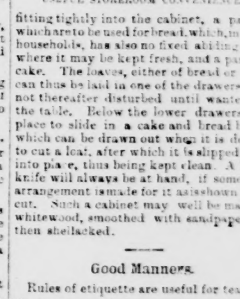

Trouble, Indeed

"Have you seen Ethel?" said our mermaid girl.

"Yes," replied the other, "she is dreadfully worried."

"Why?"

"Harold Skiffins is coming from city to see her to-night, and she has to ten which engagement to take."

The Week's News

AT HOME AND ABROAD.

—C.P.R. picnic to-morrow.
—The Pacific express was five hours late on Friday.
—Mr. H. V. Bulyea is shipping four car loads of cord wood to Sault Ste. Marie.
—Mrs. A. C. Paterson, North Portal, arrived in town on Saturday on a visit.
—Inspector Williams, N.W.M.P., passed through on Tuesday, accompanied by his wife.
—Quite an observable change in the weather this last week. Considerably cooler.
—Mr. E. MacCaul, rancher, of Qu'Appelle Valley, and brother of Mr. J. H. MacCaul, is staying in town at present.

—Mr. and Mrs. Ernest Riddale, Deep Lake, were in town on Tuesday last, having driven in Mrs. Andros, who has been visiting them for a few days.

—Owing to Tuesday's train being late, the report of the laying of the foundation stone of St. Paul's Church, at Regina, on Tuesday, with Masonic honors, is held over.

—Mr. W. P. Reekie, who has been laboring for some time amongst the Baptists of Medicine Hat, arrived at Qu'Appelle on Monday evening. He is on his way to Toronto.

—Young gentlemen who are somewhat nervous in the presence of young ladies should not lean against such frail supports as windows when in their company, lest broken panes result.

—Messrs. Bulyea and Beauchamp, the deputations appointed by the Board of Trade to interview Senator Perley re the establishment of a Government railway, left for Wolsley on Thursday night and returned Friday morning. Mr. Perley assured them of his hearty co-operation and sympathy, and that he would immediately move in the matter.

—There was a meeting of the Presbyterians on Tuesday evening, to consider the question of amalgamating with Indian Head in the holding of services for the winter months. The matter was fully discussed, and Messrs. Brody and Bersea appointed to go to Indian Head and lay before the congregation there the views of their Qu'Appelle brethren. It is thought satisfactory arrangements will be made.

—Pursuant to notice, a public meeting was held on Saturday afternoon at St. Joseph's School House, about four miles east of Balgonie, and there was a good attendance. Addresses were delivered by Messrs. Haultain and Davidson, M.L.A.s, and as Government aid to a certain extent has been promised by the Dominion Government, the object was to arrive at the most equitable way of distributing said aid. As without doubt there are some who require more assistance than others, it is not right that deserving persons may be overlooked, while some less deserving persons should be overlooked, and others less deserving reap a benefit at their expense. A committee was appointed for the purpose of ascertaining to what extent assistance is necessary. Said committee to meet in Qu'Appelle on Wednesday, the 19th, to report on the matter.

—Master Aldeon Longpre, aged 15 years, brother of Mr. Joseph Longpre, of Qu'Appelle, met with rather a serious accident on Tuesday, the 11th inst. He and his teachers and some others have been putting up hay at Horse Shoe Lake, near Devil's Lake. On the date mentioned he was riding in a wagon with another man, and had a gun with him. The gun was a muzzle loader. One barrel had been discharged. His companion had unlatched the horses to water them, when Longpre proceeded to load the empty barrel, and in so doing the gun slipped in some manner through the bottom of the wagon. He held on to the muzzle of the gun, and the hammer catching on some obstacle, the gun exploded, Longpre receiving the charge high up in the right thigh, grazing the right wrist and causing a severe wound in the face. A messenger was dispatched to Fort Qu'Appelle at once for medical assistance. In the meantime, his companions did all they could for the sufferer, washing the wounds, and, fortunately having some ice, kept the wounds cool. After about thirty-four hours Doctor Seymour arrived on the scene, dressed the wounds, and had the patient removed to the Mission, Fort Qu'Appelle. The doctor reports that there is nothing serious to be apprehended from the wounds on the face and wrist, but cannot as yet form a definite opinion as to the wound on the thigh.

—The committee appointed to deal with the matter of Government relief to distressed farmers is sitting as we go to press.

—A number of ladies and gentlemen, amongst whom are Mr. and Mrs. F. L. Osler, Mr. and Mrs. Featherstonehaugh, Miss Digby, Mr. J. H. MacCaul and Mr. Dickson, started on Monday morning on a hunting expedition, the object point we believe is about thirty miles south, in the neighborhood of the Pile of Bones Creek. Deer and antelope are said to be plentiful.

—The annual concert in aid of the funds of Wide Awake School is to be held in the schoolhouse on Friday, October 12th. The concert promises to be equal, if not superior, to those of previous years. A capital programme is being prepared, and a most enjoyable evening is anticipated. Refreshments will be provided. There is ample accommodation for the stabling of horses.

—A gun accident, whereby a half-breed boy about fifteen years of age lost his life, occurred at Fort Qu'Appelle on Tuesday. The lad went out early in the morning on a raft, which was so small as to become partly submerged, and, evidently to avoid getting his loaded gun wet, he had thrust the barrels under his vest, the muzzle pointing towards his chin. It is surmised that whilst he was propelling the raft with a pole the weapon exploded, for about seven o'clock in the morning a shot was heard, and shortly after the boy was seen lying on the floating raft. The police were summoned and took charge of the case. Dr. Seymour held an inquest, and Dr. Carthew gave evidence, stating that the shot had entered under the chin and penetrated towards the top of the head, causing instant death. The jury returned a verdict to the effect that the deceased was accidentally shot.

PHEASANT FORKS.

The eighth anniversary Sunday School sermon was preached by Mr. J. Barnsley, of Lorne, on Sunday, Sept. 14th. On Monday a public tea was given in the Town Hall, which was a success. The choir rendered a choice selection of hymns.

When the barrel stove sidewalk from the Post Office to the bridge is completed, it will make a grand promenade for our young people.

Mr. A. Ward, of Wolsley, is here visiting his numerous friends.

Mr. William Barnsley, manager of the Park Farm, Lorne, arrived here Sunday.

Our annual exhibition will be held here on Thursday, Oct. 4th. All are welcome.

Miss Symington, who has been visiting her many friends at Lorne, returned Sunday evening.

The weather has taken a tumble recently, and winter is close at hand.

GRENELL.

The prize list is out for the Eleventh Annual Exhibition of the Grenfell Agricultural Society, to be held on Wednesday, October 3rd.

Grenfell is one of the favored places that will be visited by the Hon. Wilfred Laurier and party. Everybody for miles around will be here on October 5th to hear the brilliant leader of the opposition in the House of Commons.

About three hundred head of cattle were shipped from here last Wednesday.

The harvest home at the Tellock Schoolhouse on the 12th inst. was well patronized, and all appeared to enjoy themselves.

Mr. E. B. Taylor has had the front of his drug and jewelry store painted, which adds considerably to the appearance of the street.

The Grenfell Cattle Co. have also added to the appearance of the street by giving their butcher shop a new coat of paint.

The two stone blocks being built in town are rapidly nearing completion, and when completed will be substantial ornaments to the town.

Messrs. McJannet and Dale have secured the contract of building the skating rink for Mr. D. G. Stewart. The size will be 50 by 130 feet, and the work is being rushed forward so as to have it fit for the public meeting in connection with Mr. Laurier's visit, to be held there Oct. 5th.

Mr. H. Crofton left for Old England last Sunday night. Pat will be missed by the boys (and girls too), but we expect to see him back before spring.

LORLIE.

Jack frost was here last week and snapped the head off the garden fruit.

Miss Mabel Symington, of Pleasant Forks, who has been visiting at Mr. W. Burton's, left for Forks City Sunday evening.

Miss Gillespie, school teacher who has been on a short visit to her many friends in Sault Ste. Marie, arrived here on Monday, and left the same day for Yorkton.

Our musicians who left on Monday to be present at a public tea meeting which was held at Pleasant Forks on Monday night, had a very pleasant time indeed.

Miss Billins, of Fort Qu'Appelle, has returned to the beautiful valley town after a short visit to Miss Burton.

Mr. D. J. Cantelon, J.P., who has been on a business trip to Fort Qu'Appelle, returned Wednesday morning.

The Rev. Small, of Kenia, who has been making numerous calls recently, left on Wednesday for Pleasant Plains via Chickney.

When have the ratpayers of School Section No. 9 to pay their taxes? It is high time that the collector was on the war path.

Say! "Did you ever hear of the Bon ton? Listen. After 15th September we have determined to mark down prices on all dry goods and groceries. Some lines will be positively slaughtered. But this is for cash only. We have carried the farmers over the hard time, and ask in return that they now pay cash on all purchases for the ensuing months. As of old, we will cheerfully tide them over rough spots next season.

CRAWFORD & Co.,
Indian Head.

HOTEL ARRIVALS.

ELLAND.
D. H. Patton, New York; A. Dyson, Mr. and Mrs. Featherstonehaugh, Miss Digby, John Lander, W. Anderson, Gen. Thorne, Fort Qu'Appelle; Ed. W. Law, C. R. Steele, J. Hawke, G. L. Mitchell, J. D. Brook, Will Young, W. W. Scrimmes, Winnipeg; A. H. Ellis, Ingersoll; R. Barker, Woodstock; Mrs. Wright, File Hills; A. McIntosh, Indian Head; J. Elwood, N.W.M.P., J. H. Smith, Jas. Balfour, Regina; R. Balfour, Hamilton; G. J. Van Nistrand, Toronto.

QUEEN'S.

Edmund Leech, Bluevale, Ont.; Jas. Ross, Moose Jaw; A. Matheson, Edgely; C. C. Shaw, R. Hillier, McLean; Fred. Pingle, Miss Law, Regina; H. J. Powley, C. S. Raven, Weymouth; Wm. Peckham, Balgonie; A. L. Holmes, Ottawa; C. Abbott, A. Bourget, C. W. Peters, Regina; H. H. Brettingham, Poplar Plains; Wm. Curry, St. John's College.

NOTES BY THE WAY.

I have noticed in my rambles round that in the majority of places, rhubarb, where this highly wholesome plant obtains, has been placed in the full glare of the sun, without the chance of any shade from surrounding objects. This is a mistake where strong fine growth is desired, as rhubarb will thrive best where the direct rays of the sun can be broken up by some intervening object. The leaf stalks will be finer and better in such situations where shade is afforded, than when exposed to the full sun, and as most other plants require more light the rhubarb occupies a place not appropriate for many other things. A rich, deep and porous soil is the best, and the plants should not be nearer together than two feet every way. A dressing of well rotted manure should be carefully forked in about the plants every fall, and no other cultivation is necessary, except keeping the ground free from weeds and occasionally stirring it during summer. Where seed is not wanted, flower stalks should be taken off when they first appear, and when they should be drawn from the crown without breaking—never using a knife. It seems scarcely credible, but it is nevertheless true, that seventy-five years ago rhubarb was unknown even in the markets of England. The first offered for sale there was sent by Mr. Wyatt, of Deptford, to the Borough market, London, about the year 1820. Of the five bundles sent, three remained unsold; but, little daunted by some being returned, the following week ten bundles were sent in, all of which found purchasers. Since that day rhubarb has grown rapidly in favor, and is now as much appreciated and looked for as anxiously as any other garden produce. I may add that at the present day, and for many years past, tons upon tons of rhubarb have been and are being weekly to the London markets, piled up in great solid oblong loads, exceeding in height a good and well built load of sheaves of grain. Garden ground should be in good heart—that is to say in such a condition as to be able to produce a good crop, and in this state it may be kept, if well manured once every year. Perhaps it will scarcely ever be convenient to any one to manure the whole garden at one time, and this is not of so much importance. Clay, lime, or any earthy matter, is excellent manure for a garden, and in case any of my readers may doubt at my calling

clay or lime a manure, I will say that I consider it quite correct to denominate burnt clay or lime or indeed anything else a manure when we comprehend under the name of manure, any kind of substance which has the power of stimulating plants to a more vigorous growth, and burnt lime and clay certainly possess this power. The very best compost for a garden can be made with the scrapings up from around buildings, to which is added wood ashes, or indeed ashes of any kind, rotten leaves, of which there is a plethora in the bluffs, and ordinary farmyard manure; the whole should be well mixed together and turned over several times during the summer, when it will be in fine condition for the garden in the fall. Try it, and the result will surprise you.

Hay, as paving material for city streets, does not sound practicable, but it is receiving attentive study in Philadelphia. A great pressure is brought to bear on dry hay, which is made into blocks. These are plunged into a composition, which gives them sufficient hardness to last as long or longer than wood.

I don't wish to be tiresome, but I want to sell you some storm sash. One customer thanked me for reminding him, through my advertisement, about clanging his roof. Now these are others I wish to remind about their windows. If you have none, you should. They prove a great saving of fuel. Take careful measurement of your windows, and if I haven't the sash to fit, I can get them or any other building material you may require. A. W. SHERWOOD, Indian Head.

WINNERS MARKETS.

(FROM THE WINNERS COMMERCIAL.)
Wheat. The wheat markets have been disappointing this week to those who have hoped for better prices. The markets have been heavy, and there appears to be nothing in the immediate future to lead to any important advances in prices. Prices paid to farm in Manitoba country markets range from 40 to 42c, according to freight rates, for No. 1 Hard, and 38 to 40c for No. 2 Hard. In the United States, the market has been quiet in this respect, but a little trading has been done at from 37 to 39c, per bushel for No. 1 Hard, basis Fort William delivery. Flour. Nothing new to report in the flour market. We quote No. 1, 44c; No. 2, 43c; No. 3, 42c; No. 4, 41c; No. 5, 40c; No. 6, 39c; No. 7, 38c; No. 8, 37c; No. 9, 36c; No. 10, 35c; No. 11, 34c; No. 12, 33c; No. 13, 32c; No. 14, 31c; No. 15, 30c; No. 16, 29c; No. 17, 28c; No. 18, 27c; No. 19, 26c; No. 20, 25c; No. 21, 24c; No. 22, 23c; No. 23, 22c; No. 24, 21c; No. 25, 20c; No. 26, 19c; No. 27, 18c; No. 28, 17c; No. 29, 16c; No. 30, 15c; No. 31, 14c; No. 32, 13c;
